**ZIMINE PHOTO-TIZING POWDERS.**  
(FAIRCHILD).  
ONE of these added to a pint of milk  
will produce a curd which will no longer form  
a curd to irritate the infant's stomach.  
These powders are a great advance  
on the introduction of which has probably done  
more than any other therapeutic means of re-  
cent times to lessen infant mortality. The  
British Medical Journal says, "In Diarrhoea  
and Dysentery there is no agent so safe as milk  
prepared with these powders."  
Zimine Photo-tizing Powders are supplied  
by all Chemists.

PRICE 2/3 PER MONTH

**NOTICE**  
Communications regarding Advertisements, Sub-  
scriptions, Printing, Binding, &c. should be addressed
